

# SOLAR WARNING LIGHT

## DESCRIPTION

Enhance safety with the Solar Power Flash Warning Light featuring a durable metal stand and without metal stand (Optional). This portable warning light is equipped with a high-efficiency solar panel for eco-friendly operation, ensuring reliable visibility day and night. The light emits a powerful flash with a red and yellow reflective sticker, ensuring maximum visibility even in challenging conditions. Ideal for construction sites, roadworks, and emergencies, this weather-resistant light provides dependable signaling wherever it's needed
