

BUS STOP SIGN BOARD

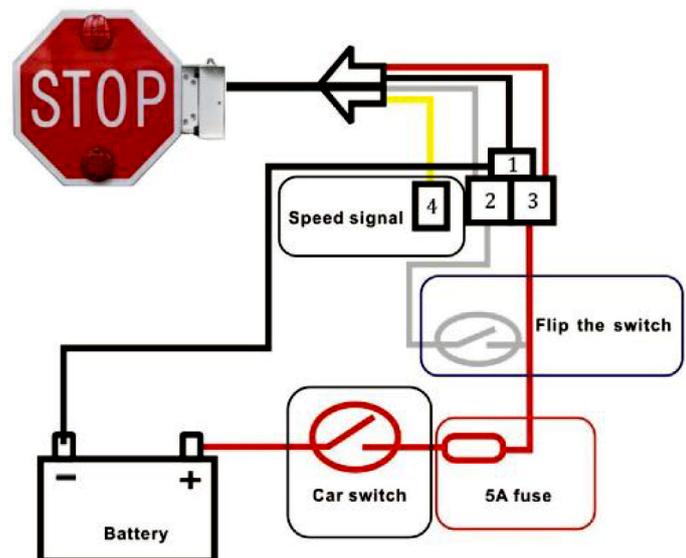

DESCRIPTION

Designed for maximum visibility when your school bus is stopped, and when recognizing the stop arm is needed the most: in dark conditions, poorly lit roads, fog, rain, and snow. Impex99 Fully Illuminated Stop Arm is by far the brightest, most noticeable stop arm in the world. The FISA provides peace of mind knowing that your school buses will get the attention of approaching motorists from the furthest distance possible, no matter the conditions.
