

PAVEMENT HUMPS

DESCRIPTION:

- . High-quality Rubber material, pressure-resistant, non-slip, and strong bearing capacity.
- . The non-slip grid design on the surface increases friction and prevents slipping. The square slot design at the bottom allows water to circulate and prevents rainwater from accumulating.
- . Small size, convenient to use and carry, and can be stored in the trunk of the car.
- . Suitable for cars, suitcases, bicycles, motorcycles, wheelchairs, scooters, etc. The ramp pads can easily help heavy equipment to climb without causing damage to tires or other parts.

MODEL: TS848
